Other Teaching Learning Aspects		
Overall Teaching Learning Process	**AR-1:** It is essential for every fundamental course to extensively integrate QLRC and include case studies. This approach ensures practical application. By implementing blended models that merge theory with practice, students will gain valuable experience. Therefore, incorporating this methodology is a vital and relevant step forward. **R-4:** SSG recommended the faculties to consider pace of teaching for both the subjects and to hold some extra classes for concept clarity and understanding of the students	**Implemented** We have successfully integrated QLRC and case studies into all fundamental courses. The curriculum now includes a balanced mix of theory and practical application. Faculty has been trained to utilize these methods effectively, and blended learning models with enhanced ICT resources support interactive learning. Regular assessments and feedback ensure continuous improvement, providing students with valuable hands-on experience. This implementation meets our educational goals and enhances student learning outcomes.
Peer Group Learning	**AR-2:** To enhance students' learning, we should facilitate peer group interactions. Providing access to peer learning environments can significantly benefit their educational experience. We can assign group projects that encourage collaboration between students of varying skill levels. Implement peer tutoring systems where advanced students can assist those who may need extra help.	**Implemented** We have successfully enhanced students' learning by facilitating peer group interactions. Access to peer learning environments has been provided, significantly benefiting their educational experience. Group projects have been assigned to encourage collaboration among students of varying skill levels. Additionally, peer tutoring systems have been implemented, allowing advanced students to assist those who need extra help. This comprehensive approach has fostered a supportive and collaborative learning atmosphere, improving overall student outcomes.
