Dear Sir/Madam,

Greetings from ICT Academy.

Thank you for your interest and for nominating your students for the "Salesforce Virtual Internship Program". We have attached the list of students who have registered from your esteemed institution for your records.

We hereby request you to kindly inform the students in the list to register in the registration link mentioned below for getting their registration to be confirmed.

Registration link - https://smartinternz.com/virtual-internship-program-form

Please cross verify the list of students attached and reconfirm to us whether all students are from your institution. If you find any students who is not from your college kindly highlight the same in RED for us to verify and remove from the Master Database.

On receipt of the final confirmation from your end, we will send it to Salesforce which will be very helpful for Salesforce in generating the reports frequently on the student's learning status.

Kindly note Student list Once uploaded in Salesforce cannot be modified or changed.

For any further clarifications kindly write back to us on vashmi@ictacademy.in.

Regards, Team ICT Academy

Dear Dr. Kamlesh,

I hope this email finds you well!

Greetings from CSRBOX!

It's been a while since the **Quantum University**, and **CSRBOX** has partnered with IBM SkillsBuild. We would like to inform you that CSRBOX has initiated offline workshops and sessions for students as a part of the IBM SkillsBuild Program.

This email is in reference to our conversation for the offline session at **Quantum University**. As discussed over call, a potential resource team member from the CSRBOX team will visit your campus and deliver the session to students:

Proposed Topic for workshop:

- 1. IBM SkillsBuild Certification Job Readiness Program
- 2. Business plan workshop for Management Students
- 3. Importance of Digital Skills in 21st Century through the lens of IBM SkillsBuild

Duration of workshop: 1 hour

Finances: Free of Cost

Benefits of attending the workshop:

- 1. Participation Certificates
- 2. Internships & Full-time job opportunities
- 3. Career development workshops
- 4. Professional resume building
- 5. Digital promotion

Kindly revert to this email with *confirmed date,time* and *approximate strength of students* who shall be able to attend the session. Our team will plan the offline sessions as per your availability and arrange for promotional resources.

My colleague @Anubhuti CSRBOX will be getting in touch with you for further communication regarding the same. I hope you have a fruitful conversation with her.

Looking forward to a prompt response.

Dear Dr.Kamlesh,

We invite you to the scheduled Zoom session. The session would include an introduction to the IBM SkillsBuild Platform, a walkthrough of the platform, and an allotted time for Q&A. You can learn more about the features of IBM SkillsBuild, all the courses available on the platform, and the latest updates.

Brief Description about IBM SkillsBuild Platform:

SkillsBuild is a free access digital learning platform that focuses on industry-relevant skill development in students and jobseekers above the age of 18 years. On successful completion of learning activities, the students can earn IBM certified badges and certificates that can be uploaded directly on LinkedIn or stated on the CV. The platform consists of 7500+ learning activities which can be accessed for free once you register on the platform through us, CSRBOX.

Meeting Details:

You are invited to a Zoom webinar.

When: Jul 26, 2021 11:00 AM India

Dear Pro Vivek,

Greetings from TCS iON, a strategic unit of Tata Consultancy Services!

It's our pleasure to invite you for a Faculty Development Program (FDP) in collaboration with NSE Academy on

"Investments and Trading: Concepts & Applications"

In fact, we recommend you nominate your whole faculty team.

Register for the FDP

Who Should Attend: M.Com, B.Com, BBA and BBM faculty

Key Takeaways:

- Design your trading strategy and avoid certain pitfalls while investing in equity markets
- Gain hands-on experience on the secondary market through NSE SMART-Simulated Market Trading application
- Get insights on secondary market and asset classes
- Effective online strategies for teaching Financial Markets and Instruments

Please cascade this invite to your faculty members and help them gain insights on the topic.

Certificate of Participation will be awarded to all attending faculty members.

Warm Regards, Team TCS iON & NSE Academy

Dear Sir

Greetings from Quick Heal Technologies, hope you are doing well

First of all I would like to thank you for your extended help and efforts for encouraging students to actively participate in the ., 'Cyber Shikshaa Programme' an initiate of DSCI and Microsoft.

We have always tried to keep you updated with the progress of the students for the programme and it has been observed that some of the students might have not been able to complete said programme due to various reasons (like paucity of time, other engagements at their academic level, failure in the final exam etc.)

The same has been informed by the participants / SPOCs of the respective Institutions. Keeping their concerns in to consideration and their willingness to re-attempt the said course we are providing again one time access to such students.

They are allowed to re appear for the said course in the upcoming batch of January 2022.

KINDLY NOTE:

- > The flow for completing the course shall be the same
- ➤ For your ease and ready reference I am re sharing flow of the course.
- > The students / SPOCs need not to share the data again for registration and enrolment.
- The participants will get the notification on their respective email ids as shared previously with Quick Heal Academy.
- > In case there are new participants who wants to take up this programme then the SPOCS may share the data in the prescribed format as shared earlier.

Important points to remember for the programme in brief:

✓ Students / candidates have the access to the learning portal from 5th January 2022 till 25th January 2022.

- ✓ The Pre Assessment and Post Assessment do not require any passing criteria as this is for our Internal reference to know the programme Impact.
- ✓ Students are required to complete the Pre Assessment > Training Module /PPTs > Post Assessment sections before appearing for Final Exam. As stated above there are no marking for Pre Assessment and Post Assessment. However, these assessments are mandatory to move ahead for the examination link.
- ✓ Once the progress is 100%, link to examination will be available.
- ✓ Examination is time bound and the duration is of 2 hours ONLY.
- √ Students are required to complete the final Exam 100 question (MCQ) within stipulated time (2 Hours).
- ✓ Students / candidates who have secured passing marks (65% or Above) shall be able to download the e-certificate.
- √ NO extension shall be given beyond 25 January 2022 to complete the course.
- ✓ In case of any further assistance required please do let us know @

On completion of this course, the students are expected to learn

- 1. Uses of AI, Ethics present and future
- 2. Introduction to Machine Learning
- 3. Application of AI by domain, Role of AI in society.

UNIT-I

Introduction to Data Science: Defining Data Science and Big Data, Benefits and Uses of Data Science and Big Data, Facets of Data, Structured Data, Unstructured Data, Natural Language, Machine generated Data, Graph based or Network Data, Audio, Image, Video, Streaming data, Data Science Process, Big data ecosystem and data science, distributed file systems, Distributed programming framework, data integration framework, machine learning framework, No SQL Databases, scheduling tools, benchmarking tools, system deployments

UNIT - II

Data Science Processes: Six steps of data science processes, define research goals, data retrieval, cleansing data, correct errors as early as possible, integrating – combine data from different sources, transforming data, exploratory data analysis, Data modelling, model and variable selection, model execution, model diagnostic and model comparison, presentation and automation.

UNIT - III

Introduction to Machine Learning: What is Machine Learning, Learning from Data, History of Machine Learning, Big Data for Machine Learning, Leveraging Machine Learning, Descriptive vs Predictive Analytics, Machine Learning and Statistics, Artificial Intelligence and Machine Learning, Types of Machine Learning – Supervised, Unsupervised, Semi-supervised, Reinforcement Learning, Types of Machine Learning Algorithms, Classification vs Regression Problem, Bayesian, Clustering, Decision Tree, Dimensionality Reduction, Neural Network and Deep Learning, Training machine learning systems

UNIT-IV

Introduction to AI: What is AI, Turing test, cognitive modelling approach, law of thoughts, the relational agent approach, the underlying assumptions about intelligence, techniques required to solve AI problems, level of details required to model human intelligence, successfully building an intelligent problem, history of AI

UNIT - V

Introduction to Data Analytics: Working with Formula and Functions, Introduction to Power BI & Charts, Logical functions using Excel, Analysing Data with Excel.

Seaborn, SciPy	

Data Analysis using Python, Numpy, Pandas, Matplotlib, and Seaborn

Objectives: The objective of this course is to teach students the concepts of Python Programming Language with Libraries

<u>UNIT – I</u>

Python programming Basic: Python interpreter, IPython Basics, Tab completion, Introspection, %run command, magic commands, matplotlib integration, python programming, language semantics, scalar types. Control flow.

UNIT - II

Data Structure, functions, files: tuple, list, built-in sequence function, dict, set, functions, namescape, scope, local function, returning multiple values, functions are objects, lambda functions, error and exception handling, file and operation systems

<u>UNIT – III</u>

NumPy: Array and vectorized computation: Multidimensional array object. Creating ndarrays, arithmetic with numpy array, basic indexing and slicing, Boolean indexing, transposing array and

swapping axes, universal functions, array-oriented programming with arrays, conditional logic as arrays operations, file input and output with array

UNIT-IV

Pandas: Pandas data structure, series, DataFrame, Index Object, Reindexing, dropping entities from an axis, indexing, selection and filtering, integer indexes, arithmetic and data alignment, function application and mapping, soring and ranking, correlation and covariance, unique values, values controls and membership, reading and writing data in text format

UNIT-V

Visualization with Matplotlib: Figures and subplots, colors, markers, line style, ticks, labels, legends, annotation and drawing on sublots, matplotlib configuration

Plotting with pandas and seaborn: line plots, bar plots, histogram, density plots, scatter and point plots, facet grids and categorical data

Probabilistic Modelling and Reasoning with Python

Objectives: The objective of this course is to teach students the concepts of Statistics, probability, probability distribution, and other statistical methods to solve various engineering problems.

Course Rationale: The course begins with the theoretical study of statistics and probability distributions which is widely used in ML, Al and all engineering applications. Topics include: basic combinatorics, random variables, probability distributions, Bayesian inference, hypothesis testing, and confidence intervals.

Course Objectives:

• The objective of this course is to teach students the basic concepts of Statistics, Probability and probability distribution and other statistical methods to solve various engineering problems.

Learning & Course Outcomes:

On completion of this course, the students are expected to learn

- 1. Basics of Statistics and Probability distributions
- 2. Sampling theory and Theory of Estimation
- 3. Various tests of Hypothesis and Significance
- 4. Correlation and Regression and fitting of different types of curves.

<u>UNIT – I</u>

Introduction to Statistics: Introduction to Statistics. Role of statistics in scientific methods, current applications of statistics.

management.

Data description: Displaying data on a single variable (graphical methods, measure of central tendency, measure of spread), displaying relationship between two or more variables, measure of association between two or more variables.

UNIT - II

Probability Theory: Sample space and events, probability, axioms of probability, independent events, conditional probability, Bayes' theorem.

Random Variables: Discrete and continuous random variables. Probability distribution of discrete random variables, binomial distribution, poisson distribution. Probability distribution of continuous random variables, The uniform distribution, normal (gaussian) distribution, exponential distribution,

gamma distribution, beta distribution, t-distribution, χ " distribution. Expectations, variance and covariance. Probability Inequalities. Bivariate distributions

UNIT-III

Point Estimations: Methods of finding estimators, method of moments, maximum likelihood estimators, bayes estimators. Methods of evaluating estimators, mean squared error, best unbiased estimator, sufficiency and unbiasedness

Interval Estimations: Confidence interval of means and proportions, Distribution free confidence interval of percentiles

UNIT - IV

Test of Statistical Hypothesis and p-values: Tests about one mean, tests of equality of two means, test about proportions, p-values, likelihood ratio test, Bayesian tests

Bayesian Statistics: Bayesian inference of discrete random variable, Bayesian inference of binomial proportion, comparing Bayesian and frequentist inferences of proportion, comparing Bayesian and frequentist inferences of mean.

Unit -V

Univariate Statistics using Python: Mean, Mode. Median, Variance, Standard Deviation, Normal Distribution, t-distribution, interval estimation, Hypothesis Testing, Pearson correlation test, ANOVA F-test

Software Req: R Studio	Hours: 4 per Week

R PROGRAMMING FOR DATA SCIENCE AND DATA ANALYSIS

Objectives: The objective of this course is to teach students R Programming Language, basic functions in R programming language and critical techniques

Course Rationale: The course begins with the study of **R Programming**

Course Objectives:

R is a programming language for statistical computing and graphics that you can use to clean, analyze, and graph your data. It is widely used by researchers from diverse disciplines to estimate and display results and by teachers of statistics and research methods

Learning & Course Outcomes:

On completion of this course, the students are expected to learn

- 1. Open Source. ...
- 2) Platform Independent. ...
- 3) Machine Learning Operations. ...
- 4) Exemplary support for data wrangling. ...
- 5) Quality plotting and graphing. ...
- 6) The array of packages. ...
- 7) Statistics. ...

UNIT - I

<u>Getting Started with R and R Workspace</u>: Introducing R, R as a programming Language, the need of R, Installing R, RStudio, RStudio's user interface, console, editor, environment pane, history pane, file pane, plots pane, package pane, help and viewer pane

R Workspace, R's working directory, R Project in R Studio, absolute and relative path, Inspecting an Environment, Inspect existing Symbols, View the structure of object, Removing symbols, Modifying Global Options, Modifying warning level, Library of Packages, Getting to know a package, Installing a Package from CRAN, Updating Package from CRAN, Installing package from online repository, Package Function, Masking and name conflicts

UNIT - II

Basic Objects and Basic Expressions: Vectors, Numeric Vectors, Logical Vectors, Character Vectors, subset vectors, Named Vectors, extracting element, converting vector, Arithmetic operators, create Matrix, Naming row and columns, subsetting matrix, matrix operators, creating and subsetting an Array, Creating a List, extracting element from list, subsetting a list, setting value, creating a value of data frame, subsetting a data frame, setting values, factors, useful functions of a data frame, loading and writing data on disk, creating a function, calling a function, dynamic typing, generalizing a function. Assignment Operators, Conditional Expression, using if as expression and statement, using if with vectors, vectorized if: ifelse, using switch, using for loop, nested for loop, while loop

<u>UNIT – III</u>

<u>Working with Basic Objects and Strings</u>: Working with object function, getting data dimensions, reshaping data structures, iterating over one dimension, logical operators, logical functions, dealing with missing values, logical coercion, math function, number rounding functions, trigonometric functions, hyperbolic functions, extreme functions, finding roots, derivatives and integration.

Unit-IV

Statistical function, sampling from a vector, Working with random distributions, computing summary statistics, covariance and correlation matrix, printing string, concatenating string, transforming text, Formatting text, formatting date and time, formatting date and time to string, finding string pattern, using group to extract data, reading data

UNIT - V

<u>Working with Data – Visualize and Analyze Data</u>: Reading and Writing Data, importing data using built-infunction, READR package, export a data frame to file, reading and writing Excel worksheets, reading and writing native data files, loading built-in data sets, create scatter plot, bar chart, pie chart, histogram and density plots, box plot, fitting linear model and regression tree

Machine Learning and Pattern Recognition

Objectives: The objective of this course is to teach students the basic concepts of machine learning, supervised learning, unsupervised learning, and reinforcement learning.

Course Rationale: The course begins with the key concepts of Machine Learning. The student gets an opportunity to learn Machine learning algorithms, analyze the results, and techniques to optimize them.

Course Objectives:

The objective of this course is to teach students the basic concepts of machine learning, supervised learning, unsupervised learning, and reinforcement learning

Learning & Course Outcomes:

On completion of this course, the students are expected to learn

- 1. Basic Algorithms of Machine Learning
- 2. Supervised and Unsupervised Learning
- 3. Linear Regression, Classification, Tree, PCA, SVD, SVM
- 4. Resampling Methods and Optimization Techniques

<u>UNIT – I</u>

Introduction: Learning systems, real world applications of machine learning, why machine learning, variable types and terminology, function approximation

Unit-II

Types of machine learning: Supervised learning, unsupervised learning, reinforcement learning

<u>UNIT – III</u>

Important concepts of machine learning: Parametric vs non-parametric models, the trade-off between prediction accuracy and model interpretability, the curse of dimensionality, measuring the quality of fit, biasvariance trade off, overfitting, model selection, no free lunch theorem

<u>UNIT – IV</u>

Linear Regression: Linear regression, estimating the coefficients, accessing the accuracy of coefficient estimates, accessing the accuracy of the model, multiple linear regression, qualitative predictors

<u>UNIT – V</u>

Classification: Logistic regression, estimating regression coefficients, making predictions, multiple logistic regressions, linear discriminant analysis, bayes' theorem of classification, LDA for p=1, LDA for p>1, quadratic discriminant analysis

- 4. Resampling Methods and Optimization Techniques

UNIT - I

Resampling Methods, Model Selection and Regularization: Cross-validation, leave-one-out cross-validation, k-fold cross-validation, the bootstrap, subset selection, shrinkage methods, ridge and lasso regression, dimension reduction methods, principal components regression, partial least square

UNIT - II

Tree Based Methods: Advantages and disadvantages of trees, regression Trees, classification trees, bagging, random forest, boosting

UNIT - III

Support Vector Machine: Maximum margin classifier, classification using a separating hyperplane, the maximal margin classifier, support vector classifier, support vector machines

Unit-IV

Classification with non-linear decision boundaries, support vector machine, one-versus-one classification, one-versus- many classification

UNIT - V

Unsupervised Learning: Principle component analysis, what are principal components, clustering methods, k-means clustering, hierarchical clustering, Independent component analysis, latent semantic indexing, Markov Models, Hidden Markov Models

Neural Network & Deep Learning

Course Rationale: The course begins with key concepts of neural networks, feed-forward neural network, and backpropogation. The student gets an opportunity to learn the programming languages (TensorFlow) to design the deep learning models. The student learns the concepts behind CNN, RNN, LSTM, Autoencoders, and GANs. The hands on learning will help build strong knowledge base for designing advanced deep learning models.

Course Objectives:

The objective of this course is to teach students the basic concepts of neural networks, neurons, and deep learning.

Learning & Course Outcomes:

On completion of this course, the students are expected to learn

- 1. Neural Network, Feed Forward and Backpropogation
- 2. Tensorflow and Keras
- 3. RNN, CNN, Autoencoders

UNIT - I

The neural network: The neuron, linear perceptron, feed-forward neural network, limitations of linear neurons, sigmoid, tanh, relu neurons, softmax output layer, information theory, cross entropy, Kullback-Leibler divergence.

UNIT - II

Training feed-forward neural network: Gradient Descent, delta rules and learning rates, gradient descent with sigmoidal neurons.

UNIT-III

Backpropagation algorithms, stochastic and minibatch gradient descent, test sets, validation sets and overfitting, preventing overfitting

UNIT - IV

TensorFlow: Computation graphs, graphs, sessions and fetches, constructing and managing graph, flowing tensors, sessions, data types, tensor arrays and shapes, names, variables, placeholders and simple optimization, linear regression and logistic regression using tensorflow

Unit-V

Implement Neural Network: Introduction to Keras, Build neural network using Keras, Evaluating models, data preprocessing, feature engineering, feature learning, overfitting, underfitting, weight regularization, dropout, universal workflow of deep learning.

Big Data Technology Foundation: Big Data stack, redundant physical infrastructure, security infrastructure, operational databases, organising data services and tools, analytical data warehouse, big data analytics

Virtualization: Basics of virtualization, hypervisor, abstraction and virtualization, implementing virtualization with big data

Cloud and Big Data: Defining cloud, cloud deployment and delivery models, cloud as an imperative for big data, use the cloud for big data

UNIT – III

57

Operational Databases: Relational database, nonrelational database, key-value pair databases, document databases, columnar databases, graph databases, spatial databases

MapReduce Fundamentals: Origin of MapReduce, map function, reduce function, putting map and reduce together, optimizing map reduce

Hadoop: Discovering Hadoop, Hadoop distributed file system, Hadoop MapReduce, Hadoop file system, dataflow, Hadoop I/O, data integrity, compression, serialization, file-based data structure

UNIT - IV

Avro: Avro data types and schemas, in-memory serialization and deserialization, avro datafiles, schema resolution

Pig: Comparison with databases, pig latin, user defined functions, data processing operators

UNIT-V

Hive: Running hive, comparison with traditional databases, HiveQL, tables, querying data, user-defined functions

Spark: Resilient distributed datasets, shared variables, anatomy of a spark job run, executors and cluster managers,

HBase: HBasics, concepts, clients, HBase vs RDBMS, Praxis

ZooKeeper: ZooKeeper services, building application with ZooKeeper

Data Visualization

Objectives: The objective of this course is to teach students the concepts of visualization using data and how it is important in business decisions.

Course Rationale: Designed to help you become a successful Data Analyst, this Subject is for those just starting their career in Analytics. It will teach you how to understand data fundamental, analyse the data methodology, techniques, powerful dashboards, Power BI & Visualization power of data along with a strong focus on case studies to ensure hands on learning. Once armed with analytics, you will also learn the powerful data visualization tool like Advanced version of Excel, Power Map, Power BI, Business Intelligence software, Tableau desktop version & other open source tools etc to present your analysis.

Course Objectives:

The basic objective is to understand the data analysis & visualize your data & method, understanding models not just a tool-oriented Analyst.

Learning & Course Outcomes:

To understand this course, it is advisable to have a foundation level knowledge of data analysis & visualization understanding. Data Analytics & PASAIANANTI CEAN POIS UNIT ATTEMPY for business insight. The job profiles come out after completion of that program is Data analyst, Business Analyst, Business Intelligence, Data Scientist, Data Architect, Data Statistician, Database Administrator, Data & Analytics manager etc. (Tools req- Microsoft office 2013/16 version, Tableau desktop, Power BI etc.

UNIT - I

INTRODUCTION TO DATA HANDLING Overview of Data analysis, Introduction to Data visualization, Working with statistical formulas - Logical and financial functions, Data Validation & data models, Power Map for visualize data, Power BI-Business Intelligence, Data Analysis using statistical methods, Dashboard designing.

UNIT - II

INTRODUCTION TO DATA MANIPULATION USING FUNCTION: Heat Map, Tree Map, Smart Chart, Azure Machine learning, Column Chart, Line Chart, Pie,Bar, Area, Scatter Chart, Data Series, Axes, Chart Sheet, Trendline, Error Bars, Sparklines, Combination Chart, Gauge, Thermometer Chart, Gantt Chart, Pareto Chart etc, Frequency Distribution, Pivot Chart, Slicers, Tables: Structured References, Table Styles, What-If Analysis: Data Tables | Correlation model | Regression model UNIT - III

Data Strategy & Consumer behaviour Analytics: Understanding Product & Category, Competitive Analysis, Market Share understanding- Market potential Index, Seasonality-Sales Trending, Consumer behaviour Analytics-MIND AND MARKET FACTORS.

UNIT-IV

Budget planning & Execution- MIMI,

Regression & Correlation Analysis for Sales trending, Forecasting method with predictive investment modelling, Cohort Analysis, Google Analytics(GA), Case Studies-Assignments

UNIT - V

TABLEAU SOFTWARE: GETTING STARTED WITH TABLEAU SOFTWARE: What is Tableau? What does the Tableau product suite comprise of? How Does Tableau Work? Tableau Architecture, What is My Tableau Repository? Dear Prof. Vivek Kumar Ji,

I am Rajendra Singh, Senior Business Leader with CollPoll.

I take this opportunity to introduce **CollPoll** (www.collpoll.com), a comprehensive enterprise technology with 40+ modules for educational institutions to achieve student success, enhance faculty performance and boost administrative efficiency. Sharing brief about CollPoll's features for your reference.

I had couple of brief discussions with Shobhit Ji during last two weeks and a demo of CollPoll Platform is to be arranged for leadership team of Quantum University.

Please suggest suitable date and time to organize this demo either on zoom or in person.

Warm regards

Rajendra Singh

Subject: Introducing CollPoll | Quantum University

Dear Mr. Shobhit Goyal,

It was pleasure speaking to you briefly over phone today while discussing about CollPoll for Quantum University.

I take this opportunity to introduce **CollPoll** (www.collpoll.com), a comprehensive enterprise technology with 40+ modules for educational institutions to achieve student success, enhance faculty performance and boost administrative

efficiency. CollPoll goes beyond a traditional ERP in digitally empowering institutions.

CollPoll's mobile-first, cloud-hosted, and easy-to-use technology is trusted by leading institutions such as Manipal University (Dubai, and Malaysia), Jindal Global University, Ashoka University, Bennett University, IIHMR University, Chitkara University, CV Raman Global University, Baba Farid Group of Institutions, Rishihood University, XIME - Chennai, CoE - Pune and Swarrnim University among others. CollPoll is guided and supported by respected academicians and technologists in India and Silicon Valley.

CollPoll got featured by multiple media - CNBC TV18, YourStory and Outlook. We partnered with Amazon Web Services (AWS) to promote modern technologies among educational institutions.

I am sharing an introductory deck about CollPoll's features to serve as a quick reference. We will be happy to demonstrate CollPoll Platform. Please suggest suitable date and time to organize this demo.

Please let us know in case any further information is required.

Best regards,

Rajendra Singh

Cc: Geetika Gupta <geetika.gupta@botmantra.com>, Arvind Kumar Singh <arvind.kumar@botmantra.com>, Pawan Winster <pawan.winster@botmantra.com>

Dear Sir / Madam,

This is Satyendra Shinde, Delivery Head from BOT Mantra (www.botmantra.com), a boutique Robotic Process Automation (RPA) technology services firm.

BOT Mantra is a business partner of Automation Anywhere, UiPath and Microsoft in Robotic Process Automation space. We have program called "Young RPA Professionals To Go" where we train fresh graduates in RPA technologies and on-board them within our organization based on their performance in the training. This is completely free for the graduates and no charges at all.

For this program, we are looking for students trained in RPA Automation Anywhere from your college / university, passed out and looking for jobs. We will be providing them further training on Automation Anywhere through above mentioned program for couple of weeks and then provide them job offers. Training and selection involve 2 steps -

Step-1: Training by BOT Mantra on Automation Anywhere product for ~ 1 to 2 weeks. Assess the performance post this training and shortlist candidates for next stage of training

Step-2: Training by Automation Anywhere for ~2 weeks. Performance assessment at the end of this training and final selection of candidates. Offers will be rolled out to candidates after clearing this assessment.

This training will be in virtual/online mode and students can take it from home. Training is completely free, no charges to students.

Looking forward to the help in sharing the list of passed out students (Preferred disciplines - Engineering (CS, IT, Electronics/Electrical), BCA, MCA, B. Sc-Computer Science) who are available for training in next weeks.

Thank you!
Regards,
Satyendra Shinde

Letter of Intent

congratulations

This is to inform that SHREYA SHARMA have been shortlisted in Corporate Training Program for the Chetu. During the 90 days of basic training, Students will learn fundamental Coding/Programming etiquette, the basics of Chetu company culture, and proper work ethics. Students will need to perform up to the Chetu training standards, and will be evaluated through weekly tests that consist of both theoretical and practical usage concepts of technology. Please note that this training will be un-paid, however, upon completion of the training, the Student is eligible for our OJT (On-the-Job Training) program.

Students that graduate to the OJT program will be paid with the stipend of ₹15,000/month. This OJT will run for three months, where a Chetu Team Lead (TL) will evaluate each week the Student's performance. Provided that the feedback is consistently favorable on a weekly basis, the Student will then be eligible to continue further training until the end of the three months where they are brought on as a full-fledged team member. We will convey the exact date of training to your TPO/Placement Officer.

Congratulations again, and we look forward seeing you at Chetu!

Best regards,

Nogo he hak

Mehak Deep Singh

Co-founder and Director

I. Position

Job title

Your title will be **Dietitian**

Working schedule

This is a full-time position. Your regular weekly schedule will be 6 days a week. Each work day constitutes a minimum of 9 hours including lunch breaks to perform the services of the company. Your weekly off will be a day communicated to you by the management.

Employment Relationship

Employment with the Company is for no specific period of time. Your employment with the Company will be "at will," meaning that either you or the Company may terminate your employment at any time and for any reason, with or without cause. Any contrary representations that may have been made to you are superseded by this letter agreement. This is the full and complete agreement between you and the Company on this term. Although your job duties, title, compensation, and benefits, as well as the Company's personnel policies and procedures, may change from time to time, the "at-will" nature of your employment may only be changed in an express written agreement signed by you and a duly authorized officer of the Company (other than you.)

II. Compensation

Salary

The Company will pay you a starting salary at the rate of INR 300000 annually i.e., inclusive of all allowances (details appended in Annexure 1 on the last page), which is payable in accordance with the Company's standard payroll schedule. This salary will be subject to adjustment pursuant to the Company's employee compensation policies. You will also be covered in the **Provident Fund** scheme as per government regulations.

Tax withholding

All forms of compensation referred to in this letter agreement are subject to reduction to reflect applicable withholding and payroll taxes and other deductions required by law.

Tax Filing

You shall be responsible for filing your tax and personal returns and comply with other requirements under the Indian Tax Law.

Tax advice

You are encouraged to obtain your own tax advice regarding your compensation from the Company. You agree that the Company does not have a duty to design its compensation policies in a manner that minimizes your tax liabilities, and you will not make any claim against the Company or its Board of Directors related to tax liabilities arising from your compensation.

III. Probation Policy

Your employment with the Company will be on probation for a period of three (3) months from your date of joining, which period may be either extended or reduced at the sole discretion of the Company based on your performance. Your employment will be confirmed upon successful completion of the probationary period unless otherwise communicated to you. Please understand, however, that completion of the Probation Period does not guarantee permanent employment. However, the company may choose to terminate your employment at any time, as per the terms and conditions of your employment offer by giving notice of 15 days.

"Upon joining, you will have an induction and classroom training. However, if you fail to achieve the required scoring in Classroom Training or if the Company terminates your employment, for any reason, or if you leave the Company you will have to exit the Company forthwith and no salary will be payable.

Upon successful completion of classroom training, you will need to successfully complete your Probation period for 3 months considering your Date of Joining. During this period if the Company terminates your services, for any reason whatsoever, or if you leave the Company, then only 50% of the agreed salary shall be paid to you as compensation for the number of working days."

IV. Leave policy

You will be eligible for Leave (Casual / Privilege) = 25 working days (maximum) (Casual Leave- 7, Privilege – 18) in a calendar year (April- March). Paid time off is additional to bank holidays and days that the company does not operate.

V. Privacy and Confidentiality

Privacy Agreement

You are required to observe and uphold all of the Company's privacy policies and procedures as implemented or varied from time to time. Collection, storage, access to, and dissemination of employee personal information will be in accordance with privacy legislation.

Conflict of Interest policy

While you are employed at this Company, you will not engage in any other employment, consulting, or other business activity (whether full-time or part-time) that would create a conflict of interest with the Company. By signing this letter of agreement, you confirm that you have no contractual commitments or other legal obligations that would prohibit you from performing your duties for the Company.

Proprietary Information and Inventions Agreement

Like all Company employees, you will be required, as a condition of your employment with the Company, to sign the Company's standard Proprietary Information and Inventions Agreement.

VI. Termination Conditions

The Company reserves the right to terminate the employment of any employee for just cause at any time without notice and without payment in lieu of notice. The Company will be entitled to terminate your employment for any reason other than for just cause, upon providing to you such minimum notice as required by law.

VII. Notice Period

Employees who voluntarily resign from the Company are asked to provide at least one-month advance notice of their resignation. This notice should be in writing and should briefly state the reason for leaving and the anticipated last day of work.

The employee needs to serve the Notice Period for One Month as per the company's policies

If you are in your Probation Period which is for the First 3 (Months) of employment the Notice Period to be served will be for 15 (Fifteen) Days.

In case the employee decides to leave without serving the notice period or is asked to leave as a result of a violation of our policies, Fitelo reserves the right to reclaim the Notice Pay recovery i.e. One Month's Salary, and also if any performance bonuses have been given to the employee in the last 6 months or hold the salary.

VIII. Interpretation, Amendment, and Enforcement

This letter agreement supersedes and replaces any prior agreements, representations, or understandings (whether written, oral, implied, or otherwise) between you and the Company and constitutes the complete agreement between you and the Company regarding the subject matter set forth herein. This letter agreement may not be amended or modified, except by an express written agreement signed by both you and a duly authorized officer of the Company.

You may indicate your agreement with these terms and accept this offer by signing this agreement. Upon your acceptance of this employment offer, Fitelo will provide you with the necessary paperwork and instructions.

Best regards,

Noge Le hak
